INVESTMENT POLICY FOR THE OFFICE OF THE STATE TREASURER

December 2015

POLICY

O.C.G.A. §§ 50-5A-7 stipulates “Pursuant to an investment policy adopted by the State Depository Board, the Office of the State Treasurer shall invest funds through the state treasurer. The state treasurer shall invest all funds with the degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering first the probable safety of their capital and then the probable income to be derived.”

It is the policy of the State Depository Board that the State Treasurer (“OST”) invest all funds prudently, considering first the probable safety of capital and then probable income, while meeting daily cash flow requirements and conforming to all statutes governing the investment of public funds. This policy and the following guidelines shall pertain to the investment of state funds, public funds comprising the Local Government Investment Pool, and other funds in the possession of OST.

OBJECTIVES

The objectives in managing all investment activities shall be:

1. Safety of capital. Investments shall be managed in a manner that seeks to ensure preservation of principal in each portfolio of investments.
2. Liquidity. Each portfolio shall remain sufficiently liquid to enable the funding of all cash needs reasonably anticipated given the profile of each respective portfolio.
3. Investment income. Each portfolio shall be managed with the objective of obtaining a market rate of return taking into consideration cash flow requirements for each respective portfolio.
4. Diversification. To reduce overall portfolio risks while maintaining market rates of return, investments in each portfolio shall be diversified to eliminate risk of loss from an over concentration in a specific maturity, issuer (including repurchase agreement dealers), and security or class of securities.

The Treasurer shall establish Investment Guidelines for each investment portfolio to assure that prudent diversification and adequate liquidity is maintained.

TERM OF INVESTMENTS

To the extent necessary, the Treasurer should attempt to match investments with expected cash requirements. However, certificates of deposit may not have a term exceeding five years. The Treasurer may establish duration or maturity limitations for other investments.

AUTHORIZED INVESTMENTS

The Treasurer is authorized to invest in such securities permitted in the Code references below:

The Treasurer may approve brokers and dealers of government securities and repurchase agreements to transact trades with OST with limits established based on firm's capitalization, execution capabilities, and other criteria. Brokers and dealers having offices in this state shall receive priority in the approval process to the extent that such limitations does not result in reduced investment performance or insufficient portfolio diversification.

INVESTMENT ADVISORS

The board acknowledges the authority of the Treasurer to contract with investment advisors and investment managers as the Treasurer deems appropriate. Any such services shall be subject to competitive bidding procedures established by the Treasurer; provided, however, that such procedures must consider the cost of the service provided and the quality of the service provided. In the case of an emergency, the Treasurer may make an exception to the competitive bidding procedures, but any such exceptions must be reported to the State Depository Board.

Funds comprising the Georgia Extended Asset Pool shall be managed as a variable net asset value fund.

OST is funded by fees it collects for managing and investing local and state agency funds. Title 36 Chapter 83-8(1) requires that OST maintain unexpended administrative fees collected from participants in trust to fund the continued operation of OST as administrator of Georgia Fund 1 and GEAP.

OST shall continuously assess opportunities to increase interest earnings taking into consideration specific state agency cash flow needs and structuring investment portfolios with weighted average maturities that optimize investment earnings. In carrying out its investment responsibilities, OST will collect administrative fees from each participant account that is segregated for accounting or investment purposes.
